Contents

PART 1 – JANUARY 1972

PAGE

Ultrastructural features of neural induction in *Xenopus laevis*. By D. TARIN 1

The ultrastructure of human umbilical vessel endothelium from early pregnancy to full term. By E. W. PARRY and D. R. ABRAMOVICH . . . 29

Fine structure of human amniotic epithelium following short-term preservation *in vitro*. By A. D. HOYES 43

The endometrial glands of the pregnant sheep: an ultrastructural study. By A. D. HOYES 55

Fine structure of the myenteric plexus in the guinea-pig ileum. By GIORGIO GABELLA 69

The ultrastructure of the skin of human embryos. X. Merkel tactile cells in the finger and nail. By KEN HASHIMOTO 99

Sensory nerve regeneration: an experimental study of skin grafts in the rabbit. By M. ORGEL, A. AGUAYO and H. B. WILLIAMS 121

Comparative patterns of cell division in epiphyseal cartilage plates in the rat. By N. F. KEMBER 137

The effect of temporary limitation of movement on the longitudinal growth of voluntary muscle. By G. N. C. CRAWFORD 143

Non-selective reunion of skeletal muscle fibres in the rat. By E. C. B. HALL-CRAGGS 151

Ultrastructural observations on the common bile duct epithelium of the rat. By D. J. RICHES 157

Sizes and numbers of arteries and veins in normal human neopallium. By D. HARNARINE-SINGH, G. GEDDES and J. B. HYDE 171

IN MEMORIAM. Wilfred Edward Le Gros Clark 181

IN MEMORIAM. George Ian Boyd 185

AN APPRECIATION. Herbert McLean Evans 187

PART 2 – FEBRUARY 1972

Electrical activity of muscles of the trunk during normal walking. By R. L. WATERS and J. M. MORRIS 191

Ossification in the fibrous growth plate at the proximal end of the tibia in the rat. M. H. BADI 201

PAGE

Persistence of the notochordal canal in vertebrae. By J. R. Taylor . . 211

Meshwork patterns in the ground substance of articular cartilage and nucleus pulposus. By G. Meachim 219

An electron microscopic study of central and peripheral nodes of Ranvier. By Dwight D. Phillips, Richard G. Hibbs, Jeffrey P. Ellison and Harvey Shapiro 229

Motor nerve terminals on rat intrafusal muscle fibres, a correlated light and electron microscopic study. By W. K. Ovalle, Jr. 239

Innervation and structure of the snout in tree shrew. By S. K. Loo and R. Kanagasuntheram 253

The origin, course and termination of the corticospinal tracts of the Tasmanian potoroo (*Potorous apicalis*). By George F. Martin, David Megirian and Jacqueline B. Conner 263

The number of villi in rat's jejunum and ileum: effect of normal growth, partial enterectomy and tube feeding. J. M. Forrester 283

A cytochemical study of the granular pneumonocytes in hamster lung. By C. Meban 293

The activity of hair follicles and their response to oestradiol in the guinea-pig *Cavia porcellus* L. By D. Jackson and F. L. Ebling 303

Book Reviews 317

Proceedings of the Anatomical Society of Great Britain and Ireland, December 1971 323

PART 3 – APRIL 1972

The influence of temperature on bone growth in the chick. By Murray Brookes and K. U. May 351

Proliferative characteristics of the ependymal layer during the early development of the spinal cord in the mouse. By I. H. M. Smart 365

Myoepithelial cell differentiation in rat mammary glands. By Carolyn J. P. Radnor 381

Morphological analysis of renal polycystosis induced by corticoids. By J. L. Ojeda, E. Barbosa and P. Gomez-Bosque 399

Fine structure of the epithelium of the human fetal bladder. By A. D. Hoyes, N. I. Ramus and B. G. H. Martin 415

Histochemical observations on developing rat skin. By E. J. Moynahan, N. C. Sethi and Murray Brookes 427

PAGE

Comparative histochemical localization of lysosomal enzymes in mammalian epididymides. By K. A. MONIEM and T. D. GLOVER 437

The disposition, morphology and innervation of cardiac specialized tissue in the guinea-pig. By R. H. ANDERSON 453

BOOK REVIEWS 469

PROCEEDINGS OF THE ANATOMICAL SOCIETY OF GREAT BRITAIN AND IRELAND, APRIL 1972 473
